Description

Strategy:

Quantitative trading strategy designed to identify and exploit opportunities in digital assets

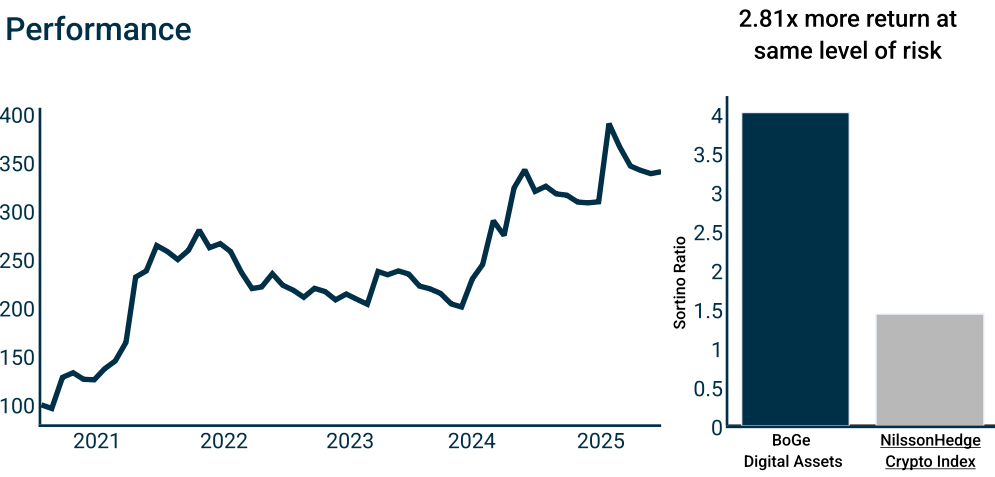

- 1- Investment Universe**  
Select the most liquid assets with the highest upside potential
- 2- Signal Generation**  
Predict assets' forward risk-adjusted returns using an ensemble of quantitative models
- 3- Portfolio Construction**  
Build an optimal portfolio from signals and estimated assets' covariance matrix
- 4- Risk Management**  
Control portfolio exposure, volatility, and drawdown
- 5- Execution Engine**  
Track the optimal portfolio at the lowest possible cost

Objectives:

Deliver a unique return stream with strong risk-adjusted performance over a full crypto cycle

- Performance Target: Over 30% annualized return after costs and fees
- Positive Convexity: Sortino ratio > 3 with much higher upside than downside volatility
- Diversification Benefits: Low correlation to traditional assets and portfolios
- Balanced Risk: Protect capital and help investors remain invested over a full crypto cycle

## Benefits

The blockchain technology is here to stay and will likely transform our society. Digital assets have substantial return potential but are still in the early stages and prone to high volatility, which makes it difficult for investors to time, manage, and stick to their investment during turbulent times.

BoGe Digital Assets AMC is designed to help investors achieve success by being:

### CRYPTO-EXPOSED

Capture the upside potential of digital asset prices

### RISK-MANAGED

Focus on defense with multiple layers of risk controls

### BATTLE-TESTED

Our program has successfully navigated through multiple turbulent times since inception in 2020

Actively Managed Certificates (AMCs) are investment vehicles that combine the features of actively managed funds and structured products. They are designed to provide investors with exposure to a professionally managed portfolio, while offering the liquidity and transparency associated with traditional exchange-traded securities.

### EASY ACCESS

Effortless subscription via traditional banking

### INNOVATIVE

Access to strategies not available in traditional products

### COST EFFECTIVE

Lower costs than typical investment funds

### TAX EFFICIENT

Pay taxes only on unit sales\*, with no forced distribution

\*No guarantee given as taxes depend on personal context. Please consult a tax advisor.
